

Outcome Document

The primary goal of the Circular Economy Stakeholder Conference was to bring together different stakeholders to discuss the latest developments in the implementation of the Circular Economy Action Plan and to start the process of setting up the European Circular Economy Stakeholder Platform.

DAY 1 welcomed more than 600 attendees who actively participated in the debates; it was also followed extensively via webstream and recorded high interactivity on Twitter. The key deliverables for 2017 will benefit from such a wealth of inputs.

DAY 2 also saw a great deal of fruitful discussion. The outcome and main conclusions will contribute to a report outlining expectations and needs concerning the European Circular Economy Stakeholder Platform; this report will be released before the summer.

As a follow-up to the conference, we would like to inform you that presentations delivered during DAY 1 as well as the video-recordings of DAY 1's sessions can be found [here](#)
