The circular economy is about reducing waste and protecting the environment; but it is also about a profound transformation of the way our entire economy works. By rethinking the way we produce, work and buy we can generate new opportunities and create new jobs. This workshop will examine the progress of the European Union's package of initiatives to promote the Circular Economy, and look at the effects that these initiatives could have on our economy.

Organized by:

In collaboration with:

Programme

09h30 **Registration**
