Economic and
Social Affairs

Global Sustainable Development Report

The report draws particular attention towards actions to:

- Mobilise adequate and well-directed finances;
- Deploy science, technology and innovation;
- Improve the availability and use of data
- Strengthen institutions to devise and deliver inclusion, integrated and cross-sectoral solutions;
- Motivate change through individual and collective behaviour, and;
- Enable Greater international cooperation

Benefits of partnerships

Pool resources

Share learning and ideas

Share risks

Enhance legitimacy

Enhance complex problem solving

A large, dark blue ink splatter graphic on the left side of the slide, with the text 'Key Success Factors' written in white serif font over it.

Key Success Factors

- Every partner benefits
- Shared goal and vision
- Trust
- Flexibility—seeing partnership as a process
- Monitoring, review and adaptation

Division for Sustainable Development Goals

- Catalyzing partnerships through events and knowledge sharing
- Data and information gathering
- Capacity building and analysis

LEARN

CRITERIA AND NORM CHECKLIST	NO / UNSURE / YES
SIDS-SPECIFIC	
Advance the implementation of Priority areas of the Samoa pathway	<div><div></div><div></div><div></div></div>
Advance the implementation of the Sustainable Development Goals (SDGs) in SIDS	<div><div></div><div></div><div></div></div>
Brings positive impact and benefits SIDS	<div><div></div><div></div><div></div></div>
MEASURABLE AND MONITORABLE	
Have a clearly built in and defined monitoring and evaluation framework	<div><div></div><div></div><div></div></div>
Have clear baseline targets and indicators of achievement linked to Samoa Pathway Priority Areas and the SDGs	<div><div></div><div></div><div></div></div>
Generate appropriate data for monitoring and evaluation	<div><div></div><div></div><div></div></div>
ACHIEVABLE AND ACCOUNTABLE	
Are realistic and are designed to fulfill its objectives;	<div><div></div><div></div><div></div></div>
Includes a robust and inclusive governance structure;	<div><div></div><div></div><div></div></div>
Are accountable to all partners and beneficiaries;	<div><div></div><div></div><div></div></div>
Provides regular communication and opportunities to share experiences between partners, beneficiaries and other stakeholders.	<div><div></div><div></div><div></div></div>

1

SCOPING THE PARTNERSHIP

Explore the idea of working together, examine how interests might align, explore and identify risks and benefits of partnering, agree on overall vision, goals and principles, determine roles for each partner, and draft up a partnering agreement.

2

BUILDING THE PARTNERSHIP

Decide on how the partnership will be governed; how partners will communicate, both internally and to the public; identify options for financing; scope out the need for human resources; develop a monitoring and evaluation programme; and identify stakeholders and beneficiaries.

3

IMPLEMENTING AND MAINTAINING THE PARTNERSHIP

Partners start delivering on their commitments, while jointly communicating and monitoring the process. External communication will also commence.

4

REVIEWING THE PROGRESS

Based on the established monitoring and review process, partners will take stock of their progress towards their agreed-upon goals. They will also assess the impact of the partnership on its beneficiaries. Regular monitoring and review throughout the partnership will allow the partners to learn from their experiences and adapt as needed.

5

PARTNERSHIP END

If the timeline for the partnership has come to an end, the partners will need to evaluate whether to close the partnership, continue in its current format, change the format to something different, or expand or scale up the partnership. This is a time of reflection for the partnership, where lessons learned should be recorded, and a final evaluation undertaken.

What will be the role of national councils?

Main objectives of the SDG PP

1. Joint advocacy and policy dialogue to create an enabling environment that helps partnerships grow and thrive.
2. Identify and broker large transformative scale PPPs that are SDG aligned under Vision 2030, MTP III and UNDAF in Kenya to drive shared value creation.
3. Raise required investments for the PPPs under 2 above, through optimizing a diversity of blended financing instruments and redirection of capital flows towards SDG implementation, engaging a wide range of stakeholders from public and private sector.
4. Facilitate monitoring and evaluation, learning and research to inform best and promising policy and practice for SDG partnerships and impact measurement.
